

SURVIVAL CAMP 2024

Finally we can announce the 8th edition of SURVIVAL CAMP.

Two sessions with 5 days of hard work each.

All to improve YOU as basketball referee!

We will take care of everything what each of us needs on the court. We will kill your bad habits and you will be „infected” with better ones.

Officiated games will be serious games of **professional players** who will be also getting ready and improve their skills for the next season!

Together with our partner **„Get Better”** we prepare training program to improve refereeing skills and **officiating technics!**

We will work on correct movement, proper positioning, clear observation, but also team work, communication and cooperation with players and coaches.

There will be a lot of practical trainings but in the meantime we will have some theoretical sessions when each of us will be active. We will talk about criteria, selection of calls and way to manage games.

There will be a chance to analyse our work supported by new technologies. This will help us to understand what we do right what we do wrong, how we can do better!

We will provide you with the possibility to collect the data about your **body condition**. You will have chance to work with **physiotherapists** and get information from **professional coaches** how to work to avoid injuries or get away from them.

Each day we will work with physical preparation coaches to improve not only our bodies but also all aspects of our movement on the court.

We prepare some special sessions with people from **Euroleague, NBA and FIBA**.
